

SENIOR DEVOPS ENGINEER

Are you ready for a new challenge where you can apply your > 5 years of experience in a broad range of tech areas and get first-hand insights into one of the hottest topics on the planet?

We are looking for an experienced DevOps engineer with an interest in **blockchain and big data** (full-time, remote work time-zone compatible to CET). Development skills would be a plus!

Being a part of our **Engineering Team** allows you to work on a plethora of varying topics and technologies including:

- Infrastructure (Docker, DNS, Firewall, Linux)
- Monitoring (InfluxDB, Prometheus, ElasticSearch, Grafana)
- Automation (Ansible)
- Database / Datalake (Hadoop, PostgreSQL, ElasticSearch, Storm, Spark)
- if you are keen on expanding your Developer skills – we have a lot of that to share as well

Get in touch:

Sascha Göbel

(Co-Founder & CTO)

sascha@anyblockanalytics.com

<https://www.anyblockanalytics.com/team/>

Your profile:

- > 5 years of hands-on experience is a must
- Tech stack: Linux, Ansible, Python, Postgres/Citus, ElasticSearch, Docker, Apache Storm, Hadoop, Spark, AWS / GCE
- Solid understanding of IT security
- Pragmatic, self-reliant and delivering high quality work
- Ideally some knowledge of blockchain

Who we are:

Blockchain technology is transforming the way business is done in the digital world.

We are a profitable German startup operating in the realm of blockchain, big data and high availability SaaS.

Offering flexible working hours, 5 weeks paid vacation and the ability to grow with us!

Our main office is close to Frankfurt, but we are a remote first company.
