

BIG DATA ENGINEER

Are you ready for a new challenge where you can apply your > 5 years of experience in a broad range of tech areas and get first-hand insights into one of the hottest topics on the planet?

We are looking for an experienced Big Data Engineer with an interest in blockchain and big data (full-time, remote work time-zone compatible to CET). DevOps skills would be a plus!

Being a part of our **Engineering Team** allows you to work on a plethora of varying topics and technologies including:

- Apache Kafka, Hadoop, Storm, Spark
- PostgreSQL/Citus, Elasticsearch
- Java, NodeJS, Python

Get in touch:
Sascha Göbel

(Co-Founder & CTO)
jobs@anyblockanalytics.com

Your profile:

- > 5 years of hands-on experience is a must
- Tech stack: Linux, PostgreSQL/Citus, Elasticsearch, Apache Storm, Hadoop, Spark, NodeJS
- Strong Java background
- Solid understanding of IT security
- Pragmatic, self-reliant and delivering high quality work
- Ideally some knowledge of blockchain technology!

Who we are:

Blockchain technology is transforming the way business is done in the digital world.

We are a profitable German startup operating in the realm of blockchain, big data and high availability SaaS.

Offering flexible working hours, 5 weeks paid vacation and the ability to grow with us!

Our main office is close to Frankfurt, but we are a remote first company.
