

SENIOR TECHNICAL WRITER

(full-time, all-remote, time-zone compatible to CET)

Are you ready for a new challenge where you can apply your prior experience in content creation for developers and enjoy the piece of mind of a full-time contract with more focus on quality than deadlines?

We are looking for a professional technical writer experienced in and passionate about creating high-quality content, and with existing knowledge in blockchain technology!

Being responsible for all Anyblock content allows you to work closely with our engineering and data science teams on varying topics:

- Creating and maintaining high-quality documentation (e.g. [FAQs](#), [docs](#), [tutorials](#), [API](#), ...)
- Helping users during onboarding flow
- Create new content ideas for our blog / social channels
- Help building brand image & credibility for the products & services
- Analyze trends in blockchain infrastructure, tools and analytics
- Social media & community management skills would be a plus
- Being able to work with code examples and/or basic graphic design skills to illustrate the content would be a plus

Shape your own job and apply today!

Who we are

Blockchain technology is transforming the way business is done in the digital world.

We are a profitable German startup operating in the realm of blockchain, big data and high availability SaaS.

Benefits

All-remote company with flexible working hours, 5 weeks paid vacation and the ability to grow with us!

Our international team treasures doing the right things right, with pragmatic decision-making and the drive to constantly learn & improve.

Your profile

- Native or idiomatic English absolutely required
- A portfolio or samples of your work is a must (cryptocurrencies are NOT of relevance, our target group is developers)
- Reliable and high quality standards for your work
- Developer / OSS background preferred
- Ability to work autonomously, be proactive, communicate & function in a distributed team
