

SENIOR DEVOPS ENGINEER BLOCKCHAIN (Chainlink, The Graph, ...)

(full-time, all-remote)

Are you ready for a new challenge where you can apply your > 5 years of experience in a broad range of tech areas and get first-hand insights into one of the hottest topics on the planet?

We are looking for an experienced DevOps Engineer / System Administrator with an interest in blockchain and operations. Development skills would be a plus!

Being a part of our all-remote **Engineering Team** allows you to work on a plethora of varying topics and technologies including:

- Focus: Blockchain node administration & operations across different blockchains, incl. personal interaction within the ecosystem (e.g. Chainlink, The Graph, ...)
- Docker, Firewall, Linux
- InfluxDB, Prometheus, Elasticsearch, Grafana
- Ansible / AWX
- Ethereum, Bitcoin, Polkadot, ...
