

SENIOR IT MANAGER

(full-time, all-remote, time-zone compatible to CET)

Are you ready for a new challenge where you can apply your > 5 years of experience in coordinating tech teams and get first-hand insights into one of the hottest topics on the planet?

We are looking for an experienced IT Manager with an interest in blockchain and operations (full-time, remote work, time-zone compatible to CET).

SCRUM / Kanban skills and development experience are a plus!

Being a part of our all-remote Engineering Team allows you to work on a plethora of varying topics and technologies including:

- Leading an international tech team with regards to product, project and ad-hoc tasks (in JIRA), e.g.
 - Operations & monitoring of blockchain infrastructure
 - Integration of new chains & technologies in big data environment
 - Development & improvement of our products and tools
- Pragmatic SCRUM/Kanban approach
- Interfacing with product management
